3.5 IN.

OWNER

Spikey Dog Ballz owner Nicolina is a dog enthusiast, and when her dogs destroyed every toy she bought for them, she decided to design her own!

OUR STORY

The search for a nearly indestructible, long-lasting dog toy that my dogs wouldn't chew through in less than five minutes seemed impossible! The toys I bought for them would be ruined by their sharp teeth and once they were punctured through, they would chew at it and my fear was that a piece would cause them an obstruction. After spending time and money trying to find that perfect dog toy, I decided to design one myself!

My dogs Ivy, Benny, and Kitana (IBK) love playing with all types of balls whether it's fetch at home or at the dog park, in the lake or pool, or by simply staying busy by gnawing at them. When I got my first prototype, they wouldn't let go of it and that was when I knew I designed a ball that every dog owner would want for their dog. I am proud to say that Spikey Dog Ballz is patent-pending!

My goal was to design a ball that is safe, functional, and fun. The long-lasting, durable Spikey Dog Ballz has a tennis ball center and a non-toxic rubber exterior with spikes. The felt-material on tennis balls can deteriorate the enamel on dog's teeth so protecting it was very important to me. I added the spikes for your dog's oral health as it can help remove plaque and tartar. It is nearly indestructible and puncture-resistant, provides mental stimulation, and for added fun it bounces, floats, squeaks, and glows!

My hope is that your dog will love it just as much as mine do!

MISSION STATEMENT

Safe, Durable, and Responsibly Made

Our mission is simple: To help dog owners live a more joyful life with their dogs by designing safe, functional, fun, and easy to use dog toys and accessories.

From a puppy to the more distinguished years, Spikey Dog Ballz has many benefits that your dog needs!

PRECAUTIONS

We take great pride in the quality of Spikey Dog Ballz and we want our customers and their dogs to be happy with their new dog toy. Please understand that no dog toy is indestructible. Customers should always supervise their dog when in use as small parts can be a choking hazard if mutilated. To clean the ball, use warm water and a small amount of mild soap to wash then rinse clean.
